

2006 TWENTIETH PROFESSIONAL SEMINAR AUDIO PRESENTATIONS

Seminar Theme: Hemi-Sync: The Bridge between Magic and Reason

Many of the presentations given at this seminar were preserved as audio files. To listen to these recordings, click on the links in the Details section below.

Keynote Address: Reasonable Magic & Magical Reason (The Philosophy of Robert Monroe)

Dr. Joseph Felser examines Robert Monroe's contention that ours is "a half-brained society"—bereft of right-brain "magic"—and considered Hemi-Sync® as a tool for producing a more balanced view of mind and reality.

Dancing with the Wind

The story of the innovative Sound/Music/Movement Program developed by Elizabeth Kuder & Davis Fleming to reach students with multiple disabilities.

Genetic Cleansing, Part II- A Sacred Spiral

Eva Lange presented the concluding segment of her odyssey through the death transition with her beloved mother and details of lessons from TMI programs that affected their relationship.

Hemi-Sync and Psycho-Oncology

After explaining the genesis of psycho-oncology, Dr. Jonathan Holt discussed an ongoing clinical trial using Hemi-Sync to relieve the fatigue and pain of radiation oncology patients and concluded by describing the case of a suicidal cancer patient who benefited from *GOING HOME*®.

Hemi-Sync Smorgasbord

Participants learned and laughed as Brian Dailey presented a smorgasbord of Hemi-Sync exercises and their uses, illustrating the main points with PowerPoint slides and humorous film clips.

introduction to the Creative Flow Workshop (Patricia Macca Peters)

Introductory Comments (Laurie Monroe)

Open Forum

Ronald Russell moderated a lively Open Forum session to exchange ideas for developing additional Hemi-Sync resources for learning-disabled children.

Outreach Presentations

A Hemi-Sync world tour with International OUTREACH Trainers Carol Sabick, Kevin Turner, Carmen Montoto, and Deborah Sachs. Their engaging delivery, supported by gorgeous PowerPoint slides, took us from Europe to Japan and Puerto Rico with a final stop in Brazil.

RNG Entropy during the GATEWAY VOYAGE

Skip presented the final results of a four-year study examining quantum entropy fluctuations during the *GATEWAY* program. Skip also shared preliminary findings from the ongoing *STARLINES* program survey.

Sensory Processing and Hemi-Sync

Pediatric physical therapist Jacqueline Mast, PT, MSED, leads participants in exploring their individual responses to internal and external sensory stimuli via the Short Sensory Profile screening test, as well as discussing the use of HemiSync to modulate the sensory processing styles of her young clients at Mast Clinic Incorporated.
